

Please do not do anything that would weaken New Jersey's Do Not Call law. Prior to the law, we were inundated with telemarketing calls. Now, we get about 99 percent fewer such calls.

If I conduct business with a company, it does not mean that I grant them the right to call me any time of the day. Also, I should not have to "opt out" to prevent such annoying calls.

I bet members of the FCC would not want every person affected by their regulations calling them at home!

Some things are more important than greed. Like peace of mind. Please put people first.
